October 19, 2022

Forrest Bird Charter School  
614 South Madison  
Sandpoint, Idaho 83864

Dear Forrest Bird Administration,

Please accept this letter as formal notice of my resignation as Culinary Arts Teacher at Forrest Bird Charter School, effective at the end of the 2022/2023 school year.

This was not an easy decision and after much deliberation, I have decided the time is right to pursue other interests and passions. My tenure at Forrest Bird has been a career highlight and I am extremely grateful for my experiences as a former parent, office coordinator and culinary instructor. Thank you for the advice, encouragement and support over the last ten years, it has been a privilege to work with this staff and our students. I will be carrying the knowledge and skills I've gathered here into my next adventure. I have no plans to leave the area and hope to serve as a substitute teacher during the next school year.

I am certain that FBCS will continue to work towards the betterment of our community with your leadership and passion for the families we serve. It has truly been a pleasure!

Please let me know if there's anything I can do to support this transition.

Sincerely,

Hillary DeCecchis

Certificated Staff Grievances

It is the Board's desire that procedures for settling certificated staff grievances be an orderly process within which solutions may be pursued. Further, that the procedures provide prompt and equitable resolution at the lowest possible administrative level. Additionally, it is the Board's desire that each certificated employee be assured an opportunity for orderly presentation and review of grievances without fear of reprisal.

Grievance Definition

A grievance pursuant to this policy shall be a written allegation of a violation of written Board approved Charter School policy.

Grievance Procedure

A staff member with a grievance is encouraged to first discuss it with their immediate supervisor, with the objective of resolving the matter promptly and informally. An exception is that complaints of sexual harassment or violation of any other protected status should be discussed with the first line administrator that is not involved in the alleged harassment. This attempt at informal resolution is not a required component of the grievance policy but is suggested in an effort to attempt to resolve disputes informally.

If the grievance is not resolved informally, and the grievant wishes to continue to seek to address the grievance, the grievant shall file the written grievance with their immediate building principal. The written grievance shall state:

1. The policy employee believes was violated;
2. The alleged date of violation;
3. The actor involved in the alleged violation; and
4. The remedy requested by the employee.

The written grievance must be filed with the Executive Director within ten working days of the date of the initial event allegedly giving rise to the grievance.

The Executive Director or his or her designee shall meet with the grievant and shall, at the discretion of the Executive Director or designee, seek whatever additional documentation the Executive Director deems appropriate, and conduct whatever additional meetings or investigative activities the Executive Director or designee believes are necessary to address the grievance.

Subsequent to these activities and within a period of ten working days, the Executive Director shall provide the grievant with a written response to the grievance of the certificated employee.

If the grievant is not satisfied with the decision of the Executive Director, the Board is the next avenue for appeal. A written appeal must be submitted to the Board within five days of receiving the Executive Director's decision. The Board is the policy-making body of the Charter School, however, and appeals to that level must be based solely on whether or not policy has been followed. Any individual appealing a decision of the Executive Director to the Board bears the burden of proving a failure to follow Board policy.

Upon receipt of a written appeal of the decision of the Executive Director, and assuming the individual alleges a failure to follow Board policy, the matter shall be placed on the agenda of the Board for consideration not later than their next regularly scheduled meeting so long as received more than three days in advance of such meeting. If such is received within three days of such meeting, the Board may schedule a Special Meeting of the Board or alternatively such matter may be placed on the agenda for the next subsequently following Board Meeting. A decision shall be made and reported in writing to all parties within 30 days of that meeting. The decision of the Board will be final.

Grievances will be processed according to the step-by-step process outlined in the Uniform Grievance Procedure 4120, however, in the case where a person designated to hear a grievance is the subject of the grievance, the grievance process will begin at the next highest step and the process shall be modified as needed to meet the objectives of the Grievance Procedure. If a grievance is directly based on official Board action, the grievance shall be directed to the Clerk of the Board. The grievance may be heard by the Board at the sole discretion of the Board.

### Probability and Strategy in Games

New Board and Card Games for Class may include the following:

- Cribbage (See attached rules)

- Rummy (See attached rules)

### Misti Rains: Science Media Sources:

1. [pbslearningmedia.org/subjects/science/](https://pbslearningmedia.org/subjects/science/) and <https://www.pbs.org/wgbh/nova/> (video and simulations)

Description: "Bring the World to Your Classroom! IdahoPTV and PBS have curated FREE, standards-aligned videos, interactives, lesson plans, and more for teachers like you."

2. <https://www.sciencenews.org/sn-magazine> and <https://www.snexplores.org/> (articles in print and online)

Description: "Founded in 2003, Science News Explores is a free, award-winning online publication dedicated to providing age-appropriate science news to learners, parents and educators. The publication, as well as Science News magazine, are published by the Society for Science, a nonprofit 501(c)(3) membership organization dedicated to public engagement in scientific research and education."

3. PhET Interactive Simulations: <https://phet.colorado.edu/>

Description: "Founded in 2002 by Nobel Laureate Carl Wieman, the PhET Interactive Simulations project at the University of Colorado Boulder creates free interactive math and science simulations. PhET sims are based on extensive education research and engage students through an intuitive, game-like environment where students learn through exploration and discovery."

4. World Nuclear Organization <https://www.world-nuclear.org/information-library/current-and-future-generation/nuclear-fusion-power.aspx>

Description: World Nuclear Association is the international organization that represents the global nuclear industry. Its mission is to promote a wider understanding of nuclear energy among key international influencers by producing authoritative information, developing common industry positions, and contributing to the energy debate.

5. Science video: <https://www.youtube.com/watch?v=mZsaaturR6E>

Description: Quality > Quantity. Animation videos explaining things with optimistic nihilism since 2013. We're a team of illustrators, animators, number crunchers and one dog who aim to spark curiosity about science and the world we live in. To us nothing is boring if you tell a good story.

6. Center for Disease Control: <https://www.cdc.gov/>

Description: " CDC is the nation's leading science-based, data-driven, service organization that protects the public's health. For more than 70 years, we've put science into action to help children stay healthy so they can grow and learn; to help families, businesses, and communities fight disease and stay strong; and to protect the public's health."

We look at the effects of ionization radiation, toxins, levels of infection in communities, etc.

7. World Health Organization: <https://www.who.int/>  
Description: Founded in 1948, WHO is the United Nations agency that connects nations, partners and people to promote health, keep the world safe and serve the vulnerable – so everyone, everywhere can attain the highest level of health.
8. Consumer Reports: <https://www.consumerreports.org/>  
Description: Consumer Reports was founded in 1936 at a time when consumers had very few options to gauge the value, quality, or authenticity of goods and services. It was an era of unfettered advertising claims, rapid technological progress, and patchwork regulations—so CR was created to equip people with the credible, trustworthy information they needed to make informed choices. Over time, CR's findings shaped purchasing decisions, and regulators and manufacturers began to heed our voice and the needs and interests of consumers.
9. Popular Science: <https://www.popsci.com/>  
Description: Founded in May 1872 by Edward L. Youmans as Popular Science Monthly, Popular Science began as more of a scientific journal than a magazine, featuring lengthy articles from the likes of Charles Darwin and Louis Pasteur. A change of ownership in the early 1900s, however, led the publication in a new direction, introducing the pithier takes on science and tech news, how tos, and hundreds of rich illustrations we still turn to today.

Since then, though our designs have evolved, PopSci has chronicled the turbulent world of innovation for the everyday reader—a mission befitting past taglines like “The What’s New Magazine” and “The Future Now.” With the launch of popsci.com in 1999, the publication entered a new phase, delivering daily dispatches about the rapidly evolving worlds of personal technology and scientific advances.

10. Online Chemistry Textbook for Lewis Dot Bonding: <https://www.saylor.org/> and [https://saylordotorg.github.io/text\\_introductory-chemistry/s13-01-lewis-electron-dot-diagrams.html](https://saylordotorg.github.io/text_introductory-chemistry/s13-01-lewis-electron-dot-diagrams.html)  
Description: Saylor Academy is a nonprofit initiative working since 2008 to offer free and open online courses to all who want to learn. We offer nearly 100 full-length courses at the college and professional levels, each of which is available right now — at your pace, on your schedule, and free of cost.
11. Adi Meyer Film on Salt: <https://www.youtube.com/watch?v=OriE86yzsns>  
Description: No creature can live without this magic mineral – and no living organism can produce it on its own. Amoebas, algae or humans – all life-forms are completely at the mercy of this simple chemical compound. In all bodies of water on earth, there is salt in abundance, and animals and humans have always been able to extract the valuable crystals from water – directly through their organs or with the aid of evaporation in salt lagoons.

12. Wix.com

Description: "Discover the platform that gives you the freedom to create, design, manage and develop your web presence exactly the way you want."

Students create a website to display information about element research.

13. BrainPOP trivia games: <https://www.brainpop.com/games/mattersorter/>

Description: BrainPOP was founded in 1999 by Dr. Avraham Kadar as a creative way to explain difficult concepts to his young patients. Today, we're a trusted learning resource supporting core and supplemental subjects, reaching millions of learners worldwide. In the example given, students sort matter into the correct states.

14. TedEd videos, riddles, questions <https://ed.ted.com/>

Description: TED-Ed is TED's youth and education initiative. TED-Ed's mission is to spark and celebrate the ideas of teachers and students around the world. Everything we do supports learning — from producing a growing library of original animated videos, to providing an international platform for teachers to create their own interactive lessons, to helping curious students around the globe bring TED to their schools and gain presentation literacy skills, to celebrating innovative leadership within TED-Ed's global network of over 650,000 teachers. TED-Ed has grown from an idea worth spreading into an award-winning education platform that serves millions of teachers and students around the world every week.

15. BBC Planet Earth video series

16. National Museum of Forest Service History <https://forestservicemuseum.org/>

Description: For more than 100 years, the U.S.D.A. Forest Service, its cooperators and partners have stood at the forefront of conservation in America, yet there has never been one central repository where artifacts and records could be collected, preserved and made available for exhibition, study and commemoration.

17. Bill Nye topic introductions from SchoolTube.com

[https://www.schooltube.com/media/Newton%27s+Second+Law/1\\_pp8jgb21](https://www.schooltube.com/media/Newton%27s+Second+Law/1_pp8jgb21)

Description: "SchoolTube is the premier, NO COST video sharing platform for K12 Districts, teachers, students, and their communities. Since our launch in 2007, SchoolTube has been exclusively endorsed by many National K12 schools and education associations – support that we continue to enjoy today. Today SchoolTube is viewed by teachers and student communities in over 90% of US schools!"

18. Online texts with simulations and interactives: <https://www.ck12.org/student/>

Description: "CK-12 will provide open-source content and technology tools to help teachers provide learning for students in a global world. Free access to high-quality, customizable educational content in multiple modalities suited to multiple student learning styles, levels, resources and use content acceptance will allow teachers, students and others to innovate and experiment with new models and modalities of learning. CK-12 help students and teachers alike by enabling rapid customization and experimentation of teaching and learning styles."

Example: <https://flexbooks.ck12.org/cbook/ck-12-middle-school-physical-science-flexbook-2.0/section/10.7/primary/lesson/newtons-law-of-gravity-ms-ps>

19. Physics Classroom <https://www.physicsclassroom.com/>

Description: "The Physics Classroom was written and developed by Tom Henderson. Tom has been teaching physics and chemistry at Glenbrook South High School in Glenview, Illinois since 1989. He is a graduate of the University of Illinois where he received degrees in Chemical Engineering and Chemistry. Tom has been working tirelessly on the development of the website since 1996. The Physics Classroom is an online, free to use physics website developed primarily for beginning physics students and their teachers. The website features a variety of sections intended to support both teachers and students in the tasks of learning and teaching physics." Physics simulations, tutorials, and interactives

20. National Science Foundation: <https://www.nsf.gov/>

Description: "The National Science Foundation (NSF) is an independent federal agency created by Congress in 1950 "to promote the progress of science; to advance the national health, prosperity, and welfare; to secure the national defense..." NSF is vital because we support basic research and people to create knowledge that transforms the future." My class uses videos produced by the foundation, like descriptions of Newton's Laws.

21. <https://nextsteps.idaho.gov/self-assessments-planning-tools>

Description: "An initiative of the State Board of Education in partnership with Idaho's employers, Next Steps Idaho is designed to help you understand and pursue the many education and career opportunities available to you. Use these interactive quizzes and planning tools to explore how your interests can translate into a rewarding career. And, make a plan to get there."
