A Message From Staff

FBCS Staff is so delighted to be back in school with new and returning students. So far this year we have enjoyed educational field trips to Trestle Creek, the Bird Museum, Farragut and Triple Play. We have walked, biked, danced and fished. Dedicated students have harvested herbs from the Memorial Garden planted last spring. Even after the school day ends we are busy with Radio Club, Music Club and Game Club. These are held from 3-4 p.m. and are a great way for students to decompress and socialize at the end of the day. Interact Club occurs during school hours and offers students a chance to get involved in school events, fundraise and learn valuable life skills.

Leadership and others from the campus community are participating in a 'FBCS Fostering a Safe Community' project in which they are researching, discussing and presenting information on data and statistics around bullying. They are encouraging everyone to be "Upstanding" community members instead of "Bystanders." We are dedicated to creating a safe and innovative learning environment for all members of our community.

If you would like to be involved in any upcoming school events, please contact Mary Jensen for more information.

Upcoming Board Meeting

4:30 P.M.
November 28th

A Message From Students

"This school is like a box of chocolates; you don't know what you are going to get but it is still appreciated."
 - Taveon SM

Meet Our New Staff Members

Krista Webber: Administrative Assistant

I am excited to be working at Forest Bird Charter School. Getting to know the FBCS staff, families and students has been a pleasure.

Angie Evans: Geometry & Algebra II

I have taught at FBCS previously and am excited to be back! I enjoy all aspects of both math and science and am in favor of integrating them together. You can find me anywhere outdoors including hiking, camping, skiing, and fishing.

Ben Evans: Culinary Arts

I am pleased to return to teaching at the charter school following a brief absence as a teacher and counselor for two decades in North Idaho. In addition to cooking, I enjoy all things outdoors, including hiking, swimming, fishing, traveling and sightseeing.

Andrea Nye: Foreign Language

I teach Foreign Language because the cultural experiences I've had have forever changed my life, and I want to create opportunities for others' lives to be changed! Experiencing Argentine Tango in college and around the world taught me that human connection is more important than anything.

Jake Eveland: Social Studies & Math

I'm a teacher of 15 years with most of those in Alaska where I was born and raised. I have a wife and two kids, Lily and Mason. I enjoy the outdoors and hanging out with my family.

Rachel Castor: Science

I am a parent, writer, avid reader and science nerd who relocated to Sandpoint from British Columbia 10 years ago. I have two teens, two dogs, and six chickens to keep her busy outside of school.
