

Snow Removal Agreement 2024-2025

We will make our best effort to have your lot cleared by 6 AM 7 days a week.
If we have a late snow fall and if you have snow buildup throughout the day I will be on call or will return for cleanup after hours.

As agreed I will clear both large parking ares, as well as the drop-off area in front of the Middle School. I will do my best to keep the drain cleared between the High School and Middle School as well as not allow any snow buildup on the North neighboring corner so as not to obstruct the culvert. I will keep the bus parking area along the High School cleared. I will also keep roadway and parking areas de-iced as needed.

My charge is \$130.00 per hour for truck or track loader. \$200 per hour for Loader.

I estimate between 1-2 hours depending on snow conditions.
