

Snow Removal Agreement 2026-2027

D&S Excavation & Site Development INC. will make reasonable efforts to have the designated areas cleared by 6 AM, 7 days a week when weather and road conditions allow.

If we have a late snow fall and if you have snow buildup throughout the day I will be on call or will return for cleanup after hours.

As agreed I will clear both large parking areas, as well as the drop-off area in front of the Middle School. D&S Excavation & Site Development INC. will make reasonable efforts to keep the drain between the High School and Middle School clear and will manage snow accumulation at the north neighboring corner to help prevent obstruction of the culvert. I will keep the bus parking area along the High School cleared. I will also keep roadway and parking areas de-iced as needed.

Truck or track loader: \$130.00/hour

Wheel loader: \$200.00/hour

I estimate between 1-2 hours depending on snow conditions.
